FALL 2009

Coming Soon ~ New Woodstock Hardware Catalogs!

Farm Maintenance & Large Animal Care • Cleaning Supplies • CleanAir For Life Program

CLEANWATER & CLEANAIR PROGRAMS © WOODSTOCK HARDWARE, WOODSTOCK, NY 2009

Dear Valued Customer,

More and more frequently Woodstock Hardware's customers are concerned with how the environment in their home and the general maintenance activities in and around their home can affect their family's health and well being. Almost daily we are asked questions that address the following concerns;

- The quality of the water they use.
- The quality of the air they breathe.
- The type of paint they use.
- The type of cleaners they use.
- The type of products they use to care for their yards and gardens.

To respond to these increasing concerns Woodstock Hardware is constantly updating and expanding our inventory. Our efforts include finding the; highest quality, green, most environmentally friendly, specialized products available to meet our customer's needs.

One of the most popular trends is for folks to be aware of the quality of the water they use to drink, prepare their food, wash their clothes, and bathe with on a daily basis. This awareness includes;

- Understanding where their home's water comes from and how it ultimately ends up inside their home.
- The options available for them to test the quality of their home's water and periodically check that the water quality has not changed.
- The products and systems available to improve the quality of their home's water.
- The effort and procedures required to properly maintain their home's water treatment and filtration system.

To increase their knowledge, we find our customers regularly searching for information to educate themselves on their water supply system and their options for **improving the quality of their home's water**. These efforts can be as simple as researching how to have the quality of their home's water tested, to purchasing a water pitcher to filter their drinking water. Or, it can be more involved and include installing water treatment and filtration equipment such as; a water softener, a whole house water filter, or an ultra-violet disinfection system to improve the quality of their entire home's water.

After a system is installed to improve the quality of their home's water, it is necessary for our customers to have the proper level of understanding on how their system works. Once installed, they are also then required to complete maintenance on the system to ensure the proper operation of their water treatment or filtration system.

As part of Woodstock Hardware's ongoing customer service efforts we are making every effort to support our customer's needs by having the specialized products and knowledge required to meet their unique water treatment and filtration system needs.

To help our customers save valuable time and money, Woodstock Hardware has introduced their flexible, **CleanWater for Life Program**. Our CleanWater for Life Program provides the products, service, and know-how needed for our customers to understand their water treatment and filtration system, and help them maintain the quality of their home's water. Our program includes the following;

- **A Water Treatment and Filtration System Service Program** that allows you to select the level of service that is right for you, to help you maintain your home's water treatment and filtration system.
- **A Water Treatment and Filtration Supply Catalog** that assembles and presents the specialized products that we offer to help you meet your water treatment and filtration system needs.
- **A Water Supply and Filtration Technical Handbook** that presents valuable information about; the quality of your home's water, your home's water supply system, and the systems available to improve the quality of your home's water.

Following you will find [Woodstock Hardware's Water Treatment and Filtration Product Catalog](#). This Catalog includes **15 specialty product categories that provide more than 100 specialty products** to help you meet all of your water treatment and filtration system needs. These categories include the following;

Water Quality Test Kits
Whole House & Sink Replacement Filters
Faucet Top/Side Replacement Filters
Whole House Water Filters
Refrigerator Ice Maker Filters
Shower Head Filters
O-Rings, Wrenches, Filter Brackets
Ultra-violet (UV) Treatment Systems & Bulbs

Water Softener Salt & Softener Additives
Refrigerator Ice Maker/Drinking Water Filters
Water Pitcher Replacement Filters
Under Sink Water Filters
Faucet Top/Side Filters
Filtered Water Pitchers
Water Softeners

After reviewing this catalog, we are confident that you will find Woodstock Hardware qualified to be your supplier of water treatment and filtration products and services. We are committed to do everything possible to make shopping for these supplies and services both easy and convenient.

Included at the end of our catalog you will find a **suggestion card** for you to pass on any comments or ideas you may have regarding our new catalog or services. Please feel free to either; mail the comment card, or just drop it by the store.

Woodstock Hardware is excited to present this catalog to you, our valued customer. Upon review of the information presented in the catalog should you have any questions please do not hesitate to stop by the store, call us, or reach us at www.woodstock-doitbest-hardware.com.

We look forward to seeing you in the store.

Sincerely,

*Vincent R. Christofora, Jr.
Owner, Woodstock Hardware*

Section 1 – Water Quality Test Kits

• Culligan Water Test Kit. 445258

This quick and easy kit contains the most commonly used tests to determine the source of household water problems. It takes only 15 minutes and is a convenient way to test your home drinking water. Kit contains: 1 each clear vial, 1 set test tablets (free chlorine, total chlorine, total iron, nitrate wide range, pH wide range, and hardness), 1 each model No. KP-21 water softener brochure, 1 each model No. ST-1 product information guide, 1 each optional lab analysis card model No. 145013, 1 each Culligan model No. TK-2 instructions, 1 each model No. 145320 color matching chart (print with the individual box, separated, and packed with box). Each kit is packed on a clip strip, 4 per strip 2 strips per case = 8 kits total case. **\$11.99**

• Water Quality Test Kit. 426042

Professional DIY test kit accurately monitors municipal and well water, as well as the efficiency of home water filtration devices. Kit includes: 2 each test strips for: pH (acidity), total alkalinity, total chlorine, total hardness, iron, copper, nitrates, nitrites, hydrogen sulfide, and iron bacteria. Reliable results instantly. Laboratory tested accuracy. Carded. **\$11.99**

• Bacteria In Water Test Kit. 426131

Simple to use DIY test kit indicates the presence of dangerous Coliform and E. Coli bacteria within 48 hours. Optional lab analysis is available, which identifies the exact count and type of bacteria present. Kit utilizes patented EPA approved laboratory analytical methods for accuracy and reliability. Kit includes: Petri dish, bacteria medium, calibrated pipette/dropper, and information form. **\$11.99**

Section 1 – Water Quality Test Kits

• **Radon In Water Test Kit. 426051**

Simple to use DIY test kit identifies radon in water from showers, baths, dishwashing, clothes washing, and is more sensitive than EPA guidelines. Kit includes: 2 glass sample vials, 2 protective mailing tubes, PPD postage envelope, and location information card. Receive standard lab results within 1 week (additional lab analysis fee). **\$11.99**

• **Pesticides In Water Test Kit. 426140**

Simple to use DIY test kit checks your water for pesticides from faucets, private wells, home purification systems, reservoirs, lakes and streams, and municipal water systems. Kit includes: 1 laboratory grade pesticide test kit, 1 sample vial, and 1 pipette/dropper. Carded. **\$11.99**

• **Lead In Water Test Kit. 426159**

Simple to use DIY test kit checks your water for lead from faucets, private wells, home purification systems, reservoirs, lakes and streams, and municipal water systems. Kit includes: 1 laboratory grade lead test kit, 1 sample vial, and 1 pipette/dropper. Receive standard lab results within 1 week (additional lab analysis fee). **\$11.99**

Section 2 – Water Softener Salt & Softener Additives

• Potassium Permanganate Water Treatment. 429639

Strong oxidizing agent converts dissolved iron and/or manganese to insoluble oxides, which can be easily removed through filtration. Regenerates and oxidizes greensand iron filter media. Composed of NSF certified material to meet Standard 60. 5 lb. container. **\$39.99**

• Super Iron Out All-Purpose Rust and Stain Remover.

Removes rust in laundry, from bumpers, tools, porcelain surfaces, glassware, toilet and flush boxes, all this in addition to cleaning water softener of iron and rust deposits. Also saves salt, lengthens regeneration cycle and increases life of softener. Contains no acid and is guaranteed to be nontoxic.

- No. IO30N: 30 oz. **403735 \$6.99**
- No. IO65N: 5 lb. **419782 \$16.99**
- No. IO10N: 10 lb. **415731 \$29.99**

• Do it Best Extra Coarse Solar Water Softener Salt. 460486

Natural Salt extra coarse water softener salt is designed to eliminate tank clean-out and help your softener unit operate at peak efficiency day after day. For use in all types of water softeners. Highly soluble, 99.8% pure salt. Eliminates brine tank clean-out. 40 lb. bag. **\$7.99**

• Do it Best Water Softener Salt With Rust Fighting Additives. 460451

Natural Salt water softener salt with rust fighting additives prevents iron deposit build-up, and prevents iron and rust discoloration on sinks, dishes, toilets, cookware, and laundry. Eliminates brine tank clean-out. Highly soluble, 99.8% pure salt. Product sized to eliminate bridging, mushing, and channeling. 40 lb. bag. **\$8.99**

Section 2 – Water Softener Salt & Softener Additives

- **Culligan Care Cubes Water Softener Salt. 468916**

Culligan Care Cubes water softener salt with Sofner-Gard II advanced cleaning formula to protect your water softener. Works with all brands of softeners. 99.6% high purity formulation for long-lasting, trouble-free operation. Cubes effectively replace pellets, nuggets, crystals, rock, or block salt. 40 lb. bag. **\$9.99**

- **Do it Best Natural Salt Water Softener Cubes. 460478**

Natural Salt water softener salt with Resin Kleen keeps softener clean and maintenance free. Controls mineral build-up, eliminates brine tank clean-out, and helps softener operate at maximum efficiency. Highly soluble, 99.8% pure salt. Product sized to eliminate bridging, mushing, and channeling. 40 lb. bag. **\$7.99**

- **Nature's Own Potassium Chloride Water Softener Crystals. 460494**

Potassium based water softener regenerant that is completely salt-free and suitable for all softener models. 40 lb. bag. **\$24.99**

[Section 3 – Whole House & Under Sink Replacement Filters](#)

• **Culligan Under Sink Drinking Water Filter Cartridge. 432644**

D10 replacement filter cartridge reduces chlorine, sediment, bad taste, and odor. 5-micron (nominal) filtration. Activated carbon-impregnated cellulose construction. Filter life up to 3 months or 250 gallon. Use with model No. US-600, US-550, and CTR-210 filters. 2 per pack. **\$11.99**

• **Culligan Sediment Water Filter Cartridge. 432652**

P5 replacement sediment filter cartridge removes extra-fine dirt, sand, silt, rust, and scale particles. 5 micron (nominal) filtration. Pure spun-polypropylene fiber construction, resistant to chemicals and corrosion. Filter life up to 2 months or 8000 gallon. Use with filter model No. HF-150, HF-160, or HF-360. 2 per pack. **\$8.99**

• **Culligan Sediment Water Filter Cartridge. 426658**

CWFD replacement sediment filter cartridge removes fine dirt, sand, silt, rust, and scale particles. 10 microns (nominal) filtration. Durable polypropylene fiber cord wound construction. Filter life up to 3 months or 12,000 gallon. Use with filter model No. HF-150, HF-160, or HF-360. 2 per pack. **\$7.99**

• **Culligan Sediment Water Filter Cartridge. 432695**

S1-A replacement sediment filter cartridge removes dirt, sand, silt, rust, and scale particles. 20 micron (nominal) filtration. Pleated cellulose construction for increased surface areas and strength. Filter life up to 3 months or 12,000 gallon. Use with filter model No. HF-150, HF-160, or HF-360. 2 per pack. **\$6.99**

Section 3 – Whole House & Under Sink Replacement Filters

• **Culligan Under Sink Drinking Water Filter Cartridge. 432636**

D20 replacement filter cartridge reduces chlorine, bad taste, and odor. Granular activated carbon construction, high surface areas for maximum absorption. Filter life up to 12 months or 1000 gallon. Use with model No. US-600, US-550, and CTR-210 filters. **\$10.99**

• **Culligan Under Sink Drinking Water Filter Cartridge. 480673**

D30 replacement filter cartridge reduces greater than 99.95% cryptosporidium and giardia cysts, chlorine, sediment, bad taste, and odor. 0.5 micron (nominal) filtration. CBC activated carbon block construction. Filter life up to 12 months or 1000 gallon. Use with model No. US-600, US-560, and CTR-210 filters. **\$21.99**

• **Culligan Under Sink Drinking Water Filter Cartridge. 432628**

D40 replacement filter cartridge reduces lindane, atrazine, lead, mercury, greater than 99.95% cryptosporidium and giardia cysts, asbestos, chlorine, sediment, bad taste, and odor. 0.5 micron (nominal) filtration. CBC activated carbon block construction with lead-reduction media. Filter life up to 6 months or 600 gallon. Use with model No. US-600, US-550, and CTR-210 filters. **\$39.99**

• **Culligan Heavy-Duty Taste And Odor Water Filter Cartridge. 449776**

The model No. RFCBBSD replacement taste and odor filter cartridge reduces chlorine, bad taste, and odor. 25 micron (nominal) filtration. Radial-flow carbon design, high flow rate capabilities. Filter life up to 3 months or 12,000 gallon. Use with model No. HD-950 filter. **\$32.99**

Section 3 – Whole House & Under Sink Replacement Filters**• Culligan Heavy-Duty Sediment Water Filter Cartridge. 449784**

CP5BBS replacement sediment filter cartridge removes fine sand, dirt, silt, rust, and scale particles. 5 microns (nominal) filtration. Pleated polyester and cellulose fiber blend construction, high flow rate/low pressure drop capabilities. High dirt holding capacity. Filter life up to 3 months or 12,000 gallon. Use with model No. HD-950 filter. **\$14.99**

**• Culligan Heavy-Duty Sediment Water Filter Cartridge. 432601**

R50-BBS replacement sediment filter cartridge removes coarse sand, rust, and scale particles. 50 micron (nominal) filtration. Durable, nonwoven pleated polyester construction, high flow rate/low pressure drop capabilities. Ideal for well applications. Filter life up to 6 months or 24,000 gallon. Use with model No. HD-950 filter. **\$15.99**

Section 4 – Refrigerator Ice Maker/Drinking Water Replacement Filters

• **Easy-Change Ice Maker And Refrigerator Drinking Water System. 432679**

The Culligan model No. IC100 icemaker and refrigerator dispenser is a level 1 drinking water filter that connects to the back of the refrigerator. The model No. IC100 features granular activated carbon, which reduces unpleasant chlorine taste and odor. The disposable filter cartridge has quick connect inserts that will work with either plastic or copper tubing. Features include easy installation, compact design, and filter life of 12 months 2500 gallon. Package includes: Disposable filter, cartridge change reminder sticker. **\$13.99**

• **Water Dispenser And Ice Maker Cartridge. 441678**

The model No. 750R replacement water dispenser and ice maker filter reduces chlorine taste and odor, bad taste and odor. Filter life is up to 12 months or 1000 gallon. For use with water dispenser and ice maker filter model No. IC750 and SY750S. **\$18.99**

• **Easy-Change Icemaker And Refrigerator Replacement Cartridge. 411236**

Easy-change icemaker and refrigerator drinking water replacement cartridge Level 1 - basic filtration. Reduces: Bad taste and odor, chlorine taste and odor, particulate Class 3. Features twist-On, twist-Off mechanism. Quick connect fittings. NSF Certified. 3000 gallon filter life. Package includes: Model No. RC-EZ-1 Level 1 replacement filter cartridge, filter change reminder sticker. **\$15.99**

[Section 4 – Refrigerator Ice Maker/Drinking Water Replacement Filters](#)

• **Easy-Change Icemaker And Refrigerator Drinking Water System Replacement Cartridge. 411256**

Easy-change icemaker and refrigerator drinking water system replacement cartridge Level 3 - advanced filtration. Reduces: Bad taste and odor, chlorine taste and odor, sediment, lead, cysts such as cryptosporidium and giardia, turbidity, atrazine, lindane, particulate Class 1. Features: Twist-On, twist-Off mechanism. Quick connect fittings, NSF Certified, 500 gallon filter life. Package includes: Model No. RC-EZ-3 Level 3 replacement filter cartridge, filter change reminder sticker. **\$29.99**

• **Easy-Change Icemaker And Refrigerator Dispenser Drinking Water Replacement Cartridge. 411264**

Easy-change icemaker and refrigerator dispenser drinking water replacement cartridge Level 4 - premium filtration. Reduces: Bad taste and odor, chlorine taste and odor, sediment, lead, cysts such as cryptosporidium and giardia, mercury, turbidity, particulate Class 1, VOC, MTBE, chloramines. Features: Twist-On, twist-Off mechanism. Quick connect fittings, NSF Certified, 500 gallon filter life. Package includes: Model No. RC-EZ-4 Level 4 replacement filter cartridge, filter change reminder sticker. **\$49.99**

• **Cyst Refrigerator Water Filter. 454648**

Replacement cyst refrigerator turn filter found inside Maytag, Jenn Air, and Amana models.

Section 5 – Faucet Top/Side Replacement Filters

• **Brita AquaView Replacement Filter. 622591**

Replacement filter for model No. 42645 AquaView system. 1 filter per package. **\$29.99**

• **Brita On Tap Replacement Filter. 625841**

Replacement filter for model No. 42201 on tap system. 1 filter per package. **\$23.99**

• **Culligan Faucet Drinking Water Filter Cartridge. 480738**

Model No. FM15RA replacement taste, odor, and sediment filter cartridge reduces 99% lead, 99.95% cryptosporidium and giardia cyst, chlorine, bad taste and odor, and sediment. Filter life up to 2 months or 200 gallon. Use with model No. FM15A filter. **\$15.99**

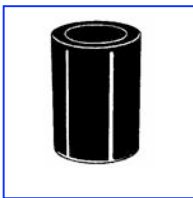

• **Replacement Filter. 484520**

Replacement filter for PUR water filter model No. FM1300, FM3000, FM3010, FM3100, FM3200, FM3200CP, FM3210CP, FM3500, and FM3550. Filter removes 99.99% of cysts, cryptosporidium, and giardia. Reduces chlorine, asbestos, atrazine, lead, lindane, and mercury. Cartridge life is 100 gallon. **\$19.99**

Section 5 – Faucet Top/Side Replacement Filters**• Refill Instapure 2 Pack. 430858**

Easy-to-replace, 3 months 200 gallon replacement filter cartridge for all Instapure water filters used with F-6 and F-2C faucet filters. 2 pack. Boxed. **\$12.99**

**• Faucet Water Filter Cartridge. 479365**

Replaceable chlorine, taste, odor, sediment, lead, lindane, asbestos, and cysts filter cartridge. 3 months, 200 gallon replacement filter cartridge fits model No. F-7 and all other Water Pik faucet water filters. Peggable box. **\$16.99**

**• Instapure Water Filter Cartridge. 431795**

Instapure replacement cartridge reduces chlorine and chlorine by-products, lead, mercury, agricultural pollutants, industrial pollutants, cryptosporidium, giardia, rust, sand, sediment, and turbidity. Filter life up to 100 gallon. Use with water filter model No. F-8. **\$17.99**

**• Culligan Water Filter Pitcher Cartridge. 491713**

Replacement water pitcher filter cartridge removes 98% lead, 90% mercury, 99% copper and zinc, 96% chlorine, 94% particulates and sediment; reduces bad taste and odor. Filter life up to 50 gallon. Use with water pitcher model No. PIT-1. **\$7.99**

**• Culligan Showerhead Water Filter Cartridge. 412783**

Replacement cartridge filter reduces sulfur odor and 99% chlorine and scale for softer, cleaner skin and hair. Filter life up to 10,000 gallon/6 months. Filter change reminder sticker included. Use with showerhead water filter model No. WSH-C125, HSH-C135, and ISH-100. **\$19.99**

Section 6 – Water Pitcher Replacement Filters**• Brita Replacement Filter.**

Certified by (NSF) National Sanitation Foundation. Filter fits model No. 35225, 35507, 35530, 42362, 42364, 42378, and 42557.

Section 7 – Whole House Water Filters

- **Culligan Heavy-Duty Whole House Sediment Water Filter. 432660**
HD950 heavy-duty water filter is ideal for high-flow/heavy-sediment applications involving private wells, large homes, farms, swimming pools, and spas. Has 4 times the capacity of standard 10" filters. Reduces dirt, sand, silt, rust, and scale particles. 1" inlet/outlet for installation on 1" cold water lines. Filter housing wrench included. Use replacement cartridge model No. R50-BBS, CP5-BBS, or RFC-BBS (not included). 5 year limited warranty. **\$69.99**

- **Culligan Whole House Sediment Water Filter. 432725**
HF360 valve-in-head water filter extends life of washing machines, water heaters, and other household appliances. Reduces dirt, sand, silt, rust, and scale particles. Has built-in shutoff valve in cap for easy cartridge changes, clear housing for monitoring cartridge life. 3/4" inlet/outlet for installation on 1/2" or 3/4" main cold water lines. Dynamically sealing, self-cleaning O-rings prevent leaks and clogging. Filter housing wrench included. Use replacement cartridge model No. S1, CW-F, or P5 (not included). 5 year limited warranty. **\$39.99**

- **Culligan Whole House Sediment Water Filter. 432717**
HF150 water filter extends life of washing machines, water heaters, and other household appliances. Reduces dirt, sand, silt, rust, and scale particles. Has durable opaque housing. 3/4" inlet/outlet for installation on 1/2" or 3/4" main cold water lines. Dynamically sealing, self-cleaning O-rings prevent leaks and clogging. Use replacement cartridge model No. S1, CW-F, or P5 (not included). 5 year limited warranty. **\$19.99**

Section 8 – Under Sink Water Filters

• Culligan Under Sink Drinking Water Filter. 411302

The Culligan US-600 drinking water filter fits compactly under the kitchen sink and taps directly into the cold water plumbing line for convenient access to filtered water from the existing kitchen faucet. The unit installs easily on a 3/8" cold water line using quick-connect fittings and is designed with an integrated mounting bracket for added installation ease. Plastic tubing and all installation hardware is included. Level 1 - Basic filtration performance is provided by the model No. D-20 cartridge which reduces chlorine, bad taste, and odor. When the model No. D-20 cartridge reaches the end of its 12 month filter life, the consumer then has the option of choosing among several Culligan cartridges that are companions to the model No. US-600, D10, D20, D-28, D30, or D40 (not included). 5 year limited warranty. **\$37.99**

• Easy-Change Under Sink Drinking Water System. 411221

Easy-change under sink drinking water system. Level 3 - advanced filtration. Reduces: Bad taste and odor, chlorine taste and odor, sediment, lead, cysts such as cryptosporidium and giardia, turbidity, atrazine, lindane, particulate Class 1. Features: Twist-On, twist-Off mechanism. Quick connect fittings and double water shut-Off. 2 year limited warranty. NSF certified. 500 gallon filter life. Includes: Filter head with built-in bracket, model No. RC-EZ-3 Level 3 replacement filter cartridge, mounting screws, supply adapter, lead-free faucet with built-in electronic cartridge life indicator, 1/4" plastic tubing. Filter change reminder sticker. **\$69.99**

• Easy-Change Under Sink Drinking Water System. 428184

Easy-Change undersink drinking water system. Level 1 - basic filtration. Reduces: Bad taste and odor, chlorine taste and odor. Particulate Class III. Features twist-On/twist-Off mechanism. Quick connect fittings and double water shutoff. 2 year limited warranty. NSF certified. 3000 gallon filter life. Includes: Filter head with built-in bracket, model No. RC-EZ-1 Level 1 replacement filter cartridge, mounting screws, supply adapter, lead-free faucet, 1/4" plastic tubing, and filter change reminder sticker. **\$47.99**

Section 8 – Under Sink Water Filters

- **Easy-Change Under-Sink Drinking Water System. 432814**

Easy-Change under-sink drinking water system. Level 4 - premium filtration. Reduces: Bad taste and odor, chlorine taste and odor, sediment, lead, cysts such as cryptosporidium and giardia, mercury, turbidity. Particulate Class I, VOC, MTBE, chloramines. Features twist-On/twist-Off mechanism. Quick connect fittings and double water shutoff. 2 year limited warranty. NSF certified. 500 gallon filter life. Includes: Filter head with built-in bracket, model No. RC-EZ-4 Level 4 replacement filter cartridge, mounting screws, supply adapter, lead-free faucet with built-in electronic cartridge life indicator, 1/4" plastic tubing, and filter change reminder sticker. **\$99.99**

[Section 9 – Refrigerator Ice Maker/Drinking Water Filters](#)

• **Easy-Change Ice Maker And Refrigerator Drinking Water System. 432679**

The Culligan model No. IC100 icemaker and refrigerator dispenser is a level 1 drinking water filter that connects to the back of the refrigerator. The model No. IC100 features granular activated carbon, which reduces unpleasant chlorine taste and odor. The disposable filter cartridge has quick connect inserts that will work with either plastic or copper tubing. Features include easy installation, compact design, and filter life of 12 months 2500 gallon. Package includes: Disposable filter, cartridge change reminder sticker. **\$13.99**

• **Culligan Easy-Change Icemaker And Refrigerator Filter Cartridge. 499072**

Model No. 1000R replacement icemaker and refrigerator filter cartridge reduces lead, cysts, lindane, atrazine, chlorine, taste, odor, and sediment. Compact size fits conveniently on wall behind refrigerator. Easy change 1/4 turn filter cartridge eliminates mess, simply twist On/twist Off. Filter life up to 6 months or 500 gallon. Use with model No. SY1000 and IC1000 filters. **\$34.99**

• **Easy-Change Ice Maker And Refrigerator Dispenser. 441651**

Easy-Change ice maker and refrigerator drinking water system. Level 1 - basic filtration. Reduces: Bad taste and odor, chlorine taste and odor, Particulate Class III. Features twist-On/twist-Off mechanism. Quick connect fittings and double water shutoff. 2 year limited warranty. NSF certified. 3000 gallon filter life. Includes: Filter head with built-in bracket. Model No. RC-EZ-1 Level 1 replacement filter cartridge, mounting screws, and filter change reminder sticker. **\$23.99**

[Section 9 – Refrigerator Ice Maker/Drinking Water Filters](#)

- **Easy-Change Icemaker And Refrigerator Dispenser Drinking Water Filter. 411191**

Easy-change Icemaker and refrigerator dispenser drinking water filter Level 4 - premium filtration. Reduces: Bad taste and odor, chlorine taste and odor, sediment, lead, cysts such as cryptosporidium and giardia, mercury, turbidity, particulate Class I, VOC, MTBE, chloramines. Features twist-On, twist-Off mechanism. Quick connect fittings and double water shutoff. 2 year limited warranty. NSF Certified. 500 gallon filter life. Includes: Filter head with built-in bracket, model No. RC-EZ-4 Level 4 replacement filter cartridge, mounting screws, and filter change reminder sticker. **\$69.99**

- **Icemaker Level 3 Filter. 499064**

Easy-change ice maker and refrigerator drinking water system. Level 3 - advanced filtration. Reduces: Bad taste and odor, chlorine taste and odor, sediment, lead, cysts such as cryptosporidium and giardia, turbidity, atrazine, and lindane. Particulate Class 1. Features twist-On/twist-Off mechanism. Quick connect fittings and double water shutoff. 2 year limited warranty. NSF certified. 500 gallon filter life. Includes: Filter head with built-in bracket. Model No. RC-EZ-3 level 3 replacement filter cartridge, mounting screws, and filter change reminder sticker. **\$37.99**

Section 10 – Faucet Top/Side Filter

• Brita AquaView System. 625575

The AquaView is the first and only faucet mount filtration system that lets you see what the filter removes from tap water. The AquaView provides proof your water is better - right before your eyes. AquaView's removable side panel exposes the filter unique window that allows you to see the filter changing color over time as it traps sediment from your tap water. Convenient lever allows easy shifting between filtered and unfiltered water. Electronic filter change light indicator. Unique, stylish design that fits neatly underneath the neck of your faucet, maximizing valuable sink space. Attaches easily to faucets without any tools, in just minutes. Certified by NSF International to reduce chlorine taste and odor, and remove 98% of sediment and less that may be found in tap water. Each filter provides 100 gallons of filtered water, approximately 4 months for the average family. Refer to model No. 42647 for replacement filter.

• Brita On Tap System. 625835

Great tasting water instantly. Attaches easily without tools. Eliminates 99% of lead, sediment, and chlorine (taste and odor). Electronic filter indicator, tells you when to replace the filter. Easy switch from filtered to unfiltered water. Easy-to-change filter. Filter snaps right into base. Lasts for 100 gallons or 4 months, whichever comes first. Refer to model No. 42401 for replacement filter. **\$45.99**

• Culligan Faucet Mount Drinking Water Filter. 480711

The model No. FM15A compact water filter reduces 99% lead, greater than 99.95% cryptosporidium and giardia cysts, chlorine, bad taste, and odor. Mounts directly onto kitchen faucet; simply pull the diverter valve stem to receive filtered water right from the tap. Use replacement filter cartridge model No. FM15RA (included). **\$24.99**

Section 10 – Faucet Top/Side Filter

• **Faucet Mount Drinking Water Filter.**

Faucet mount water filter unit offers 92% reduction of chlorine, and also reduces bad taste and odor. Built-in selector extends filter cartridge life by letting you choose between filtered and unfiltered water. Fast and easy-to-install. NSF tested and certified. Includes 1 model No. F2R-2ES/R2 200 gallon replacement filter cartridge. Limited lifetime warranty.

No. F2BWTU-1ES/F2: Faucet filter, white with visible filter **441589**
\$17.99

No. F2BCTU-1ES/F2: Faucet filter, chrome with visible filter **430867**
\$19.99

• **Instapure Faucet Mount Drinking Water Filter. 431786**

Instapure faucet mount water filter unit provides the maximum filtration available and is 20% smaller than other leading brands. Reduces chlorine and chlorine by-products, lead, mercury, agricultural pollutants, industrial pollutants, cryptosporidium, giardia, rust, sand, sediment, and turbidity. Mounts directly onto kitchen faucet. 3 modes of operation: Filtered water, auto switch to unfiltered water with standard stream, or unfiltered water with pulsating power rinse. Indicator light changes to red to alert you that the filter should be replaced. NSF tested and certified. Includes 1 model No. R-8 100 gallon filter cartridge. Limited lifetime warranty. White. **\$29.99**

• **Faucet Mount Drinking Water Filter. 430867**

Faucet mount water filter unit offers 92% reduction of chlorine, and also reduces bad taste and odor. Built-in selector extends filter cartridge life by letting you choose between filtered and unfiltered water. Fast and easy-to-install. NSF tested and certified. Includes 1 model No. F2R-2ES/R2 200 gallon replacement filter cartridge. Limited lifetime warranty.
\$19.99

Section 11 – Shower Head Filter**• Showerhead Water Filter. 487902**

Shower filter reduces 95% chlorine, sediment, and bad odors. Chlorine has a drying effect on hair and skin, and may also damage permed or color-treated hair. Screws directly onto existing shower head without tools. Specially designed to maintain the height of your current shower head. Use with replacement filter model No. WHR-140 (included). **\$25.99**

Section 12 – Filtered Water Pitchers

• UltraMax Dispenser. 619515

Makes tap water taste great. Now eliminates 99% of lead. Reduces chlorine, bad tastes, and odors. Prevents bacteria growth in the filter due to water hardness. Ideal for families. Convenient 1-touch dispensing. Rectangular tank fits easily on refrigerator shelves and countertops. 144 oz. (18 - 8 oz. glasses) capacity. Certified by (NSF) National Sanitation Foundation. Includes: 1 filter and 1 filter change indicator. The electronic indicator contains a nonreplaceable sealed battery that is designed to last for approximately 5 years, depending on usage. Refer to model No. 35503 for replacement filter. **\$49.99**

• Brita Pitcher. 632724

3 qt. Pitcher eliminates 98% of the lead and reduces chlorine (taste and odor), copper, and mercury that may be present in your tap water. Elegantly designed. Flip-top lid for easy refilling. Soft-grip handle. Prevents bacteria growth in the filter to prolong its life. Reduces sediment and water hardness. Certified by (NSF) National Sanitation Foundation. Refer to model No. 35512 or 35503 for replacement filters. **\$37.99**

• Brita Riviera Pitcher. 625826

2 qt. Makes great-tasting water. Fresh filtered. Reduces chlorine (taste and odor). Reduces sediment. Reduces harmful contaminants for cleaner water. Eliminates 98% of lead. Reduces copper, mercury, and cadmium. Electronic filter change indicator makes remembering to change your filter even easier. Fits in refrigerator door. Refer to model No. 35512 or 35503 for replacement filter. **\$39.99**

Section 12 – Filtered Water Pitchers

- **Standard Pitcher. 636371**

Makes tap water taste great. Now eliminates 99% of lead. Reduces chlorine, bad tastes, and odors. Prevents bacteria growth in the filter to prolong its life. Reduces sediment and water hardness. Simple-to-use, easy-to-handle. More convenient and economical than bottled water. 18 - 8 oz. glasses of filtered water. Certified by (NSF) National Sanitation foundation. Refer to model No. 35501 or 35503 for replacement filters.

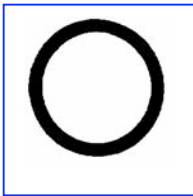

\$29.99

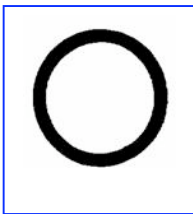

- **Standard Pitcher. 621471**

Unique shape maximizes refrigerator space. Flip-top lid makes refilling easy. New comfortable handle improves grip. Eliminates 99% of lead. Certified to reduce mercury and copper. Reduces chlorine, bad tastes, and odors. Reduces sediment and water hardness. Covered pour spout reduces refrigerator odors. 6 - 8 oz. glasses. Certified by (NSF) National Sanitation Foundation. Refer to model No. 35512 or 35503 for replacement filter.

\$29.99

Section 13 – Water Filter Brackets, Wrenches, and O-Rings**• Culligan 1" Filter O-Ring. 432792**

Replacement O-ring for heavy-duty filter assemblies with 1" inlet/outlet. Fits Ametek model No. HD-950. **\$4.99**

**• Culligan 3/4" Filter O-Ring. 432768**

Replacement O-ring for whole house filter assemblies with 3/4" inlet/outlet. Fits Ametek model No. PS-00, PSCL-00, PVHCL-S1, HF-150, HF-160, and HF-360. **\$2.99**

**• Culligan 3/8" Filter O-Ring. 411310**

Replacement O-ring for Ametek model No. US-600 and US-550 under sink filter. **\$2.79**

**• Culligan 3/8" Filter O-Ring. 432784**

Replacement O-ring for filter assemblies with 3/8" inlet/outlet. Fits Ametek model No. CSL-C1K, US-550, and US-600 under sink filters. **\$2.79**

Section 13 – Water Filter Brackets, Wrenches, and O-Rings

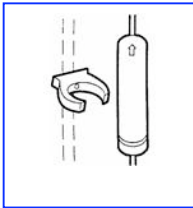

- **Culligan Spanner wrench.**

Circular plastic wrench designed to loosen bottom of filter housing during cartridge replacement.

No. SW1: For undersink filters with 3/8" inlet/outlet, for model No. US-550, SY-5167, and SY-5197 **432741 \$4.99**

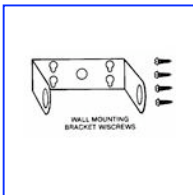

No. SW2: For whole house filters with 3/4" inlet/outlet, Culligan model No. HF-150, HF-160, and HF-360 **432733 \$4.99**

No. SW3: For whole house filter with 1" inlet/outlet Culligan model No. HD950 **429959 \$6.99**

- **Culligan Ice Maker Water Filter Bracket. 411299**

The model No. ICMB mounting bracket for Culligan model No. IC100 ice maker filters. **\$4.99**

- **Culligan Wall Mount Bracket. 432806**

For 3/4" housings, allows mounting of filter under sink where plastic or flexible copper tubing is incapable of supporting water filled housing.

\$6.99

Section 14 – Water Softeners

• **Water Boss Water Softener - Big Boss. 462780**

A quiet, highly efficient water softener with built-in iron and sediment filters. Larger size for big families or extreme hardness. Computerized on-demand regeneration requires only 15 to 27 gallon of water and 3 to 6 lb. of salt to regenerate. Regeneration will take 21 to 38 minutes, depending on the salt setting of the unit. User-friendly controls and low-rise compact housing promote ease of setting softness level, adding salt, and unit placement. Rated to 36,500 grain capacity, 10 micron sediment removal, and 10 PPM iron removal. Hardness determination test included. Installation CD included. 30.75" H. x 14.75" W. x 18.75" D.

\$579.99

• **Do it Best Demand Regeneration Water Softener. 433179**

32,000 grain removal capacity/100 grain per gallon maximum hardness. Removes up to 10 PPM of clear water iron. Space saving single cabinet design with safety brine overflow feature. 200 lb. salt storage capacity. Metered valve regenerates on actual water usage, saves up to 50% in water and salt. Includes plastic bypass valve. 3 year warranty on valve head. 10 year warranty on mineral tank. 1 year limited warranty on other parts. Unit measures 14" W. x 20" D. x 44" H.

\$679.99

• **Do it Best Demand Regeneration Water Softener. 441554**

32,000 grain removal capacity/100 grain per gallon maximum hardness. Removes up to 10 PPM of clear water iron. The demand regeneration control can save up to 50% in salt and uses considerably less water by regenerating only when regeneration is needed. Includes plastic bypass valve. 3 year warranty on valve head. 10 year warranty on mineral tank. Mineral tank is 10" diameter x 49" H. Brine tank is 18" diameter x 33" H.

\$679.99

Section 14 – Water Softeners

• **Do it Best Automatic Water Softener. 433209**

24,000 grain removal capacity/75 grain per gallon maximum hardness. Removes up to 3 PPM of clear water iron. Space saving single tank design. 6 day programmable valve head. 200 lb. salt storage capacity. 3 year warranty on valve head. 10 year warranty on mineral tank. Unit measures 18" W. x 18" D. x 44" H. **\$499.99**

• **Do it Best Automatic Water Softener. 433160**

32,000 grain removal capacity/100 grain per gallon maximum hardness. Removes up to 10 PPM of clear water iron. Dual tank design for easy maintenance. 6 day programmable valve head. 250 lb. salt storage capacity. Safety brine valve protects against brine tank overflow. Includes plastic bypass valve. 3 year warranty on valve head. 10 year warranty on mineral tank. Mineral tank is 10" diameter x 49" H. Brine tank is 18" diameter x 33" H. **\$579.99**

[Section 15 – Ultraviolet \(UV\) Treatment System Bulbs](#)

Ultraviolet Treatment System Bulbs

Due to the wide variety of specialized uv-bulbs, bulb prices will be determined after the manufacturer, type and size are confirmed.
